PRESS RELEASE

THRUFLOW™ ESTABLISHES EUROPEAN AGENT: BAECK & JANSEN

The European market continues to open for ThruFlow™

Wallaceburg, Ontario March 29, 2010: ThruFlow Inc. is pleased to announce that Baeck and Jansen have chosen to include the ThruFlow™ Premium Decking System in their ground-breaking enclosed metal pontoons. "ThruFlow is very excited to add Baeck & Jansen as a premier pontoon building ThruFlow™ integrator in Europe. I feel that Baeck & Jansen's unique and innovative aluminium pontoon and quality engineered design offer them a strategic advantage in the European Market. We are proud to have the ThruFlow product line associated with Baeck & Jansen and are very optimistic about the market possibilities for the combination of these two great products." said ThruFlow Inc. General Manager Derek McGivern.

With more than 50 years of experience in designing and building for the tough marine environment Baeck & Jansen have more than proven their mettle, they have built a legacy to be proud of. As an accomplished industry leader in their home base of Belgium, and focused on growth in markets including all Benelux countries, Germany and France, Baeck and Jansen have a unique philosophy and product. With their significant engineering experience Baeck adapts their core pontoon and marina system designs to completely suit the environment to which it is intended. Their all aluminum pontoon floats are not only tough and long-lasting but beautiful and unique at the same time. <http://www.baeck-jansen.be/en/home.aspx> or bj@baeck.be .

Since 1991 ThruFlow Inc. has made a mission of engineering, producing and marketing innovative products for the Marine industry including its ThruFlow™ Premium Decking System. As the market leader for this type of marine focused decking, headquartered in Ontario, Canada, ThruFlow continues to grow its business around the world.
